## **Section: A**

### **1. Introduction:**

- 1.1 These guidelines shall be called **Guidelines for Reporting Entities (Real Estate Agents) under the Prevention of Money Laundering Act, 2002** (hereafter called “**The Guidelines**”). The Guidelines aim to provide a general background and summary of the provisions of the applicable anti-money laundering and anti-terrorism financing legislations in India, viz. the Prevention of Money Laundering Act, 2002 (hereinafter referred to as the “**PMLA**”) and the Prevention of Money Laundering (Maintenance of Records) Rules, 2005 (hereinafter referred to as the “**PMLR**”) and their applicability to and implications for the real estate agents in applying certain Anti Money Laundering/ Countering the Financing of Terrorism (AML/CFT) obligations.
- 1.2 Rule 2(1)(fa)(iv) of the PMLR defines ‘Regulator’ as “the Central Board of Indirect Taxes and Customs, constituted under Central Boards of Revenue Act, 1963, with respect to the real estate agents” (inserted vide G.S.R. Notification 800(E) dated 28.12.2020 issued under F.No. P-12011/14/2020-ES Cell-DOR. The Guidelines are being issued by the Directorate General of Audit (DGA), Central Board of Indirect Taxes and Customs (CBIC) which has been appointed Regulator on behalf of Central Board of Indirect Taxes & Customs, Ministry of Finance, Govt. of India for this purpose vide O.M. dated 22.11.2021 of the Commissioner (GST-Inv), CBIC (**Annexure-I**). The broader context for the Guidelines is provided by the Recommendations made by Financial Action Task force (FATF) on anti-money laundering standards and the Guidance on the Risk-Based Approach adopted in its June 2008 Plenary to Combating Money Laundering and Terrorist Financing, which includes guidance for public authorities and designated non-financial businesses and professions (DNFBPs) including Real Estate Agents (hereinafter also referred to as the “Reporting Entities”), amongst others.
- 1.3 The PMLA and the rules made thereunder, viz. the PMLR, on implementing a risk-based approach for the Reporting Entities, lays down the principles to be followed by them and highlights risk factors specific to those DNFBPs, along with suggestions to minimize the risk of Money Laundering/ Terrorist Financing (ML/TF).

- 1.4 These guidelines also set out the steps that a Real Estate Agent shall implement to discourage and to identify any money laundering or terrorist financing activities. These guidelines prescribe procedures and obligations to be followed by the reporting entities to ensure compliance with Anti Money Laundering / Countering the Financing of Terrorism (AML/CFT) guidelines.
- 1.5 The strategies to manage and mitigate the identified money laundering and terrorist financing activities are typically aimed at preventing the activity from occurring through a mixture of deterrence [*e.g.*, appropriate Client Due Diligence (“**CDD**”) measures], detection (*e.g.*, monitoring and suspicious transaction reporting), and record-keeping so as to facilitate investigations by the appropriate authorities, wherever required, which are discussed at length here under.

## **2. Purpose of the guidelines:**

- 2.1 The purpose of these guidelines is to explain the risk-based approach, outline the core principles involved in applying the same, and indicate best practices in the design and implementation of an effective risk-based approach.
- 2.2 The purpose of these guidelines is also to establish a reporting mechanism with the real estate agents that will help in combating money laundering and terrorist financing.

## **3. Real Estate Agents**

For purposes of these guidelines, the term "real estate agents" has the same meaning as defined in Clause (zm) of Section 2 of The Real Estate (Regulation and Development) Act, 2016 (**RERA**). “Real estate agent” means ‘any person, who negotiates or acts on behalf of one person in a transaction of transfer of his plot, apartment or building, as the case may be, in a real estate project, by way of sale, with another person or transfer of plot, apartment or building, as the case may be, of any other person to him and receives remuneration or fees or any other charges for his services whether as a commission or otherwise and includes a person who introduces, through any medium, prospective buyers and sellers to each other for negotiation for sale or purchase of plot, apartment

or building, as the case may be, and includes property dealers, brokers, middlemen by whatever name called and **having annual turnover of Rupees twenty lakhs and above.**'

**4. Policies and Procedures to Combat Money Laundering and Terrorist financing: (AML/ CFT Program):**

- 4.1. Every real estate agent is required to have an AML/ CFT program in place in order to discharge its statutory responsibility to detect possible attempts of money laundering and financing of terrorism.
- 4.2. In view of the requirements of the PMLA and the rules made thereunder, as applicable to the reporting entities in preventing ML and TF, each real estate agent shall consider carefully the specific nature of its business, organisational structure, type of client and transaction, etc to satisfy itself that the measures taken by it are adequate and appropriate and follow the spirit of the suggested measures as laid down in the PMLA. Each reporting entity shall also satisfy itself that such measures are effectively implemented.
- 4.3 Real Estate offers a convenient way to launder large amounts in a single transaction. Real Estate also offers secondary benefits for the criminals, such as helping them to secure residence, ensuring social respectability, and providing an immediately available good of material benefit. As such, criminals may not make any tangible use of many financial assets, but such is not the case with real estate sector as it offers opportunity to individuals to transfer the value of funds into both commercial and residential property. Real estate is often an appreciating asset that can generate returns and become a good source of personal gains. A real estate agent must be able to form a reasonable belief that they know the true identity of each customer. Customer Due Diligence (CDD) measures must be conducted to form these beliefs with the identification and verification of the identity of customers and their beneficial owners.

**5. Obligation to establish policies and procedures under PMLA:**

- 5.1 In order to combat the menace of money-laundering, terror financing and other related serious crimes, Rule 7(3) of the PMLR casts an obligation on every reporting entity to evolve an internal mechanism in respect of these

guidelines to detect transactions as specified under Rule 3(1) and furnishing information about such transactions to Financial Intelligence Unit (FIU-IND). The obligation of reporting entities to effectively serve to prevent and impede money laundering and terrorist financing and to observe such internal controls not only by them but also by their designated Director, officers and employees is a legal requirement under Rule 7(4) of the PMLR. It is without ambiguity that the success of internal policies and procedures will be dependent largely on how effectively these are outlined and implemented.

5.2 To comply with these obligations, every reporting entity shall establish appropriate policies and procedures for the prevention of ML and TF and ensure their effectiveness and compliance with all relevant legal and regulatory requirements. The reporting entities shall:

- (i) issue a statement of policies and procedures for dealing with ML and TF reflecting the current statutory and regulatory requirements;
- (ii) ensure that spirit of these guidelines and internal policies and procedures are understood by all staff members;
- (iii) regularly review the policies and procedures on the prevention of ML and TF to ensure their effectiveness. To ensure the effectiveness of policies and procedures, the person doing such a review shall, as far as possible, be different from the one who has framed them;
- (iv) adopt client acceptance policies and procedures and undertake Client Due Diligence (CDD) measures to the extent that is sensitive to the risk of ML and TF depending on the type of client, business relationship or transaction;
- (v) have a system in place for identifying, monitoring and reporting suspected ML or TF transactions to the law enforcement authorities; and
- (vi) develop mechanism/s through training/ workshops, etc to make their staff aware and vigilant to guard against ML and TF.

- 5.3 **Maintenance of records:** As per the provisions of Section 12 of the PMLA, every reporting entity shall have to maintain a record of all the transactions; information relating to such transactions, whether attempted or executed, the nature and value of which has been prescribed in Rule 3 of the PMLR and to maintain record of documents evidencing identity of its clients and beneficial owners as well as account files and business correspondence relating to its clients as detailed in the foregoing part of these guidelines.
- 5.4 **Transactions defined for the purpose of reporting:** As prescribed under Rule 3 of the PMLR, such transactions include:
- (i) All **cash** transactions of the value of more than Rs. 10 lakh or its equivalent in foreign currency.
  - (ii) All series of **cash** transactions integrally connected to each other which have been individually valued below Rs. 10 lakh or its equivalent in foreign currency where such series of transactions have taken place within a month and the monthly aggregate exceeds an amount of Rs. 10 lakh or its equivalent in foreign currency.
  - (iii) All **cash** transactions where forged or counterfeit currency notes or bank notes have been used as genuine or where any forgery of a valuable security or a document has taken place facilitating the transactions.
  - (iv) All suspicious transactions **whether or not made in cash** and by way of deposits or credits, as provided under sub rule 1(D) of Rule 3 of the said rules.

It is, however, clarified that for the purpose of suspicious transactions reporting, apart from 'transactions integrally connected', 'transactions remotely connected or related' shall also be considered.

- 5.5 **Know Your Client (KYC) and Client Due Diligence (CDD):** As provided under Section 11A of the PMLA read with Rule 9 of the PMLR, it is incumbent upon every Reporting Entity to follow certain client identification procedures in respect of the buyers and sellers of real estate and monitoring transactions of a suspicious nature for the purpose of reporting it to the appropriate authority. These 'Know Your Client' guidelines have been

revisited in the context of the Recommendations made by the Financial Action Task Force (FATF) on Anti Money Laundering (AML) standards and on Combating Financing of Terrorism (CFT). The reporting entities are advised to ensure that an appropriate policy framework on 'Know Your Client' and Anti Money-Laundering measures is formulated and put in place. Principally, these CDD measures are required to be followed when the Reporting Entities engage in any cash transaction with a client equal to or **exceeding rupees fifty thousand**, as prescribed under Rule 9(1)(b)(i) of the PMLR.

- 5.6 **Suspicious Transaction Reporting:** In line with FATF Recommendation 20, Rule 8(2) read with Rule 3(1)(D) of the PMLR provides for prompt reporting of a suspicious transaction, which includes an attempted suspicious transaction, to the FIU-IND, if a reporting entity suspects or has reasonable grounds to suspect that funds used by a client are the proceeds of a criminal activity, or are related to terrorist financing. A suspicious transaction shall be reported within **seven** working days of its occurrence.

## **Section: B**

### **6. Detailed Guidelines on Anti Money-Laundering and combating the financing of terrorism Procedures**

#### **6.1 Appointment of a Designated Director and a Principal Officer:**

In line with the provisions of Rule 7 of the PMLR, every reporting entity shall appoint:

- (i) a Principal Officer and,
- (ii) a Designated Director

As far as possible, the Principal Officer and the Designated Director should be separate individuals. Names, designation, telephone number and addresses (email addresses) of Principal Officer and the Designated Director including any changes therein shall be intimated to the Office of the Director, FIU-IND, Regulator and the Real Estate Regulatory Authority governing the reporting entity.

6.1.1 The Designated Director and the Principal Officer shall be responsible for the following to combat money laundering/ countering the financing of terrorism:

- (a) Furnishing of the information under Rule 8 (1) of the PMLR, as prescribed under sub rule (1) of Rule 3 of the said rules on monthly basis, **by 15<sup>th</sup> day of the succeeding month**, in prescribed **Format** to the Director, FIU-IND. However, the information in respect of a suspicious transaction shall be furnished **within seven working days** of its occurrence as per Rule 8(2) of the PMLR, as mentioned at Para 8.6. Such information shall include any attempted transactions, whether or not made in cash;
- (b) Evolving an internal mechanism with regard to any guidelines issued by the Regulator or the Director, FIU-IND and for furnishing information as prescribed under sub rule (1) of Rule 3 of the PMLR;
- (c) Communication of group policies relating to prevention of ML and TF to all management and relevant staff that handle account information, money and client records, etc. within their organisation;

- (d) Client acceptance policy and client due diligence measures, including requirements for proper identification, such as:
  - (i) Maintenance of records;
  - (ii) Compliance with relevant statutory and regulatory requirements;
  - (iii) Cooperation with the relevant law enforcement authorities, including the timely disclosure of information; and
  - (iv) Role of internal audit or compliance function to ensure compliance with the policies, procedures and controls relating to the prevention of ML and TF, including detection of suspected money laundering transactions.

## 6.2 **Client Due Diligence (CDD) Measures and Know Your Client (KYC) norms:**

6.2.1. In consonance with the basic principles of the KYC norms as prescribed in the PMLA or the rules made there under, all reporting entities shall frame their own internal directives based on their experience in dealing with their clients and legal requirements as per the established practices.

6.2.2. In accordance with Rule 9 of the PMLR, each reporting entity shall adopt written procedures to implement the anti-money laundering provisions as envisaged under the PMLA, related to the '**Client Due Diligence Process**'. The requirement is stated hereunder:

1. Every reporting entity shall-
  - (a) at the time of commencement of an account-based relationship-
    - (i) identify its clients, verify their identity, obtain information on the purpose and intended nature of the business relationship; and
    - (ii) determine whether a client is acting on behalf of a beneficial owner, and identify, the beneficial owner and take all steps to verify the identity of the beneficial owner:

(b) in all other cases, verify identity while carrying out-

(i) transaction of an amount equal to or exceeding rupees fifty thousand, whether conducted as a single transaction or several transactions that appear to be connected, as mentioned at Para 8.5 above.

2. Every reporting entity shall be responsible for obtaining KYC records of its clients and file the same with the Central KYC Records Registry. The third-party KYC records may also be used for this purpose.

6.2.3. Considering the potential threat of transactions in real estate by a money launderer / terrorism financier, the reporting entities should make reasonable efforts to determine the true identity of all clients engaging in sale and purchase of such real estate, especially the person who funds/pays for a transaction, either as beneficial owner or otherwise. Where a client is a juridical person, verification of identity is required to be carried out on persons purporting to act and are authorised to act on behalf of a client. Effective procedures should be put in place to obtain requisite details for proper identification of new clients. Special care has to be exercised to ensure that the transactions are not under anonymous or fictitious names.

6.3. **Beneficial owners:** The reporting entities should also make reasonable efforts to obtain sufficient information in order to identify persons who are the beneficial owners. Whenever it is apparent that the transactions made through an account are beneficially owned by a party other than the client, that party shall be identified using client identification and verification procedures. The beneficial owner is the natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted. It also includes those persons who exercise ultimate effective control over a legal person or arrangement. The client's identity should be verified using reliable, independent source documents, data or information.

#### 6.4. **Enhanced Due Diligence:**

6.4.1. In tune with the FATF Recommendation 10, Section 12AA of the PMLA prescribes for the reporting entities to perform enhanced due diligence for higher-risk clients, business relationships and transactions.

6.4.2. Reporting entities should examine, as far as reasonably possible, the background and purpose of all complex, unusually large transactions, and all unusual patterns of transactions, which have no apparent economic or lawful purpose. Where the risks of money laundering or terrorist financing are higher, reporting entities should be required to conduct enhanced due diligence measures, consistent with the risks identified. In particular, they should increase the degree and nature of monitoring of the business relationship, in order to determine whether those transactions or activities appear unusual or suspicious.

6.4.3 Conducting enhanced due diligence should not be limited to merely documenting income proofs. They should be more rigorous and robust measures than normal KYC. These measures should be commensurate with the risk. While it is not intended to be exhaustive, the following are some of the reasonable measures in carrying out enhanced due diligence:

- (i) More frequent review of the clients' profile/transactions,
- (ii) Application of additional measures like gathering information from publicly available sources or otherwise,
- (iii) Review of the clients' information at senior level of the reporting entity,
- (iv) Reasonable measures to know the client's source of funds commensurate with the assessed risk of client and product profile which may include:
  - (a) conducting independent enquiries on the details collected on / provided by the client where required,
  - (b) consulting a credible database, public or other, etc.

**6.5. Policy for client acceptance and risk assessment (Risk Based Approach):**

6.5.1. Within the provisions of Rule 9 of the PMLR, the KYC policy shall clearly spell out the client identification procedure to be carried out at different stages, i.e., while establishing the relationship with client, while carrying out transactions with a client or when the reporting entity has doubts regarding the veracity or the adequacy of previously obtained client identification data.

6.5.2. It is generally recognized that certain clients may be of a higher or lower risk category depending on the circumstances such as the client's background, type of business relationship or transaction, etc. In order to identify the types of clients that are likely to pose a higher than average risk of ML or TF, the reporting entities shall develop client acceptance policies and procedures. It would help in applying client due diligence on a risk sensitive basis. The risk assessment shall be documented and shall be made available to the Director, FIU-IND/ Regulator, as and when required. The following safeguards are to be followed while accepting the clients:

- a) No reporting entity shall allow the opening of or keep any anonymous account or account in fictitious names or accounts on behalf of other persons whose identity has not been disclosed or cannot be verified.
- b) The clients should be categorised in two categories, viz. high risk and low risk.
- c) Factors of risk perception for monitoring suspicious transactions of the clients are clearly defined having regard to clients' location, nature of business activity, trading turnover etc. and manner of making payment for transactions undertaken.
- d) Individuals (other than High Net Worth) and entities whose identities and sources of wealth can be easily identified and transactions in whose accounts by and large conform to the known profile may be categorised as low risk. The salaried

employees whose salary structures are well defined, people belonging to lower economic strata of the society, government departments and government owned companies, regulators and statutory bodies may fall under the low-risk category. In such cases, the basic requirements of verifying the identity and location of the client need to be ensured and a simplified client due diligence process should be followed. However, in case a client's profile is found to be inconsistent with his transactions, an enhanced due diligence may be resorted to.

- e) A risk assessment of clients who are non-residents, high net worth individuals, trusts, charities, NGOs and organisations receiving donations, companies having close family shareholding or beneficial ownership, firms with sleeping partners etc will determine their Money Laundering/ Terrorist Financing risk.
- f) Individuals who are or have been entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior government/judicial/military officers, senior executives of state-owned corporations, important political party officials, are higher risk clients and reporting entities should conduct enhanced due diligence of such individuals and their close relatives. All reporting entities shall put in place appropriate risk management systems to obtain relevant information about such clients, such as referring to publicly available information. Approval at senior management level must be required for establishing business relationships with such clients. Reporting entities shall also take reasonable measures to verify the sources of funds as well as the wealth of such clients.
- g) The clients with dubious reputation as per available public information are considered as high risk, requiring EDD.
- h) In cases where the appropriate CDD measures to identify the profile of a client cannot be applied or it is not possible to ascertain the identity of the client, or the information provided

by the client is suspected to be false or non-genuine, the reporting entity shall not enter into a transaction with such client. In such cases, a suspicious activity report shall be filed.

- i) In cases, where the identity of a client is ascertained as having a criminal background, a suspicious transaction report shall be filed.

#### **6.6. Reliance on Third Party KYC:**

The reporting entity is solely responsible for undertaking Client Due Diligence and Enhanced Due Diligence measures. However, subject to the provisions of Rule 9(2) of the PML (Maintenance of Records) Rules, 2005, a reporting entity may rely on a third party for obtaining the KYC information. It shall be ensured by the reporting entity that the third party is not based in a country or jurisdiction assessed as high risk.

#### **6.7 Suspicious Transaction Monitoring and Reporting**

6.7.1 Reporting entities shall ensure that appropriate steps are taken to enable suspicious transactions to be recognized and have appropriate procedures for reporting suspicious transactions.

6.7.2 A list of circumstances which may be in the nature of suspicious transactions is given below. This list is only illustrative and whether a particular transaction is suspicious or not will depend upon the background, details of the transactions and other facts and circumstances:

- (i) Clients whose identity verification seems difficult or clients that appear not to cooperate;
- (ii) Asset management services for clients where the source of the funds is not clear or not in keeping with clients' apparent standing/business activity;
- (iii) Clients based in high-risk jurisdictions;
- (iv) Substantial increases in business without apparent cause;

locations with instructions for payment in cash;

6.7.3 Any suspicious transaction shall be immediately notified to the Principal Officer or the Designated Director within the reporting entity. The notification may be done in the form of a detailed report with specific reference to the clients, transactions and the nature /reason of suspicion. However, it shall be ensured that there is continuity in dealing with the client as normal until told otherwise and the client shall not be told of the report/ suspicion.

6.7.4 It is likely that in some cases transactions are abandoned or aborted by clients on being asked to give some details or to provide documents. It is clarified that reporting entities shall report all such attempted transactions in STRs, even if not completed by clients, irrespective of the amount of the transaction.

## **7. Liability for failure to fulfil obligations:**

As prescribed under Section 13 of the PMLA, any reporting entity may be required to get its records audited by a Chartered Accountant appointed by the Central Govt. and also impose a monetary penalty on the reporting entity, its director or the employees for failure to fulfil the obligations cast upon them by the PMLA or rules made there under. A delay in not reporting a transaction as prescribed under these rules shall also constitute violation of the PMLA and the rules made thereunder.
